Notes: Computed portfolio/factor overlap covers July 1964 to June 2025 (732 months). Panel A: July 1963-June 1973 uses July 1964 to June 1973 (108 months). Panel B: July 1973-June 1983 uses July 1973 to June 1983 (120 months). Panel C: July 1983-June 1993 uses July 1983 to June 1993 (120 months). Panel D: July 1993-June 2003 uses July 1993 to June 2003 (120 months). Panel E: July 2003-June 2014 uses July 2003 to June 2014 (132 months). Panel F uses July 2014 to June 2025 (132 months). Panel G uses July 2014 to June 2025 excluding January 2020 to December 2021 (108 months). Returns and OLS standard errors are monthly percentages. Duration portfolios are rebuilt in memory from `cash_flow_duration.parquet` and `crsp_monthly_clean.parquet`, then equally weighted by month.
